## Adams

The early data available on this family cannot be satisfactorily resolved at this time. There was an Abraham Adams (will dtd 18 December 1734) and a John Adams (will dtd 17 February 1733-34), both of Bath, NC, and both had, among others, a son named James Adams. Then, there was an Ann Leigh (probable wife of James of will dtd 23 September 1728, formerly Darden, will in Beaufort Precinct, dtd 9 August 1732, who had a grandson James Adams.

### First Generation of Record

#### 1

James Adams, Bath Precinct, believed to have been a chaplain in the Revolutionary War, d. prior to 17 February 1805. On 20 April 1745, he was one of the commissioners, from Hyde County to Bath Town; Commissioner of Navigation and Pilotage, Bath, 24 December 1777. It is possible that he came to Bath, from Jamestown, via Edenton. He was documented, in Bath, as of 10 December 1744. He was granted 200 acres on Blounts Creek, 11 April 1745; 600 acres in Beaufort County, 21 May 1747; 600 acres Beaufort County, 5 April 1749; other lands, on Blounts Creek, 11 October and 11 December 1753. He must not be confused with another James Adams, a member of the Society for the Propagation of the Gospel (SPG), who d. in the area of Pasquotant County on/about 20 October 1710. He had, probably among others, a dau:

+2. Mary

### Second Generation

#### 2

Mary Adams. See First, #1, Generation of the Bowen Family. She was m. three times: #1 to Mr Palmer and they had a dau, Lucretia who m. Alderson Ellison, Jr (see Third, #9, Generation of the Ellison Family); #2 to William S Rowland; #3 to Thomas Bowen (see First, #1, Generation, of the Bowen Family).

The Author believes that James Adams of Beaufort County, NC, will in Old Will Book, pp 58-60, Court House, Washington, NC, was the father of James (#1). Will dtd 17 October 1758, p. March 1759. In that instrument, he named wife Mary, and children: son James, inherited home plantation, lot in Bath, NC, and 100 acres; daughters: Dorothy Goddard, Winnifred, Ann Dunston, and grand-daughter Mary Dunston (not yet 18). The will identified land on Blounts Creek, and he left blacks and animals, etc., to each of the children.

## Alderson

The North Carolina Colonial Records contain proof that Mr Isaac Wilson proved a right for land for the importation of a Simon Alderson, 6 January 1705, at Perquimans Precinct Court, North Carolina. Still another right was proved by Mr Christopher Bofitin, 11 October 1709, for the importation of a Simon Alderson. Neither of these Simon Aldersons appear, to the Author, to be the Simon Alderson of this sketch.

### First Generation of Record

1

Simon Alderson (Sr) m. Elizabeth - - -. He was one of the founders of Bath, NC, 1704, see Second, #2, Generation of the Martin Family for more details. By his will, dtd 9 January 1712, he named wife Elizabeth and their children:

- +2. Elizabeth.
- 3. Jane, m. Mr Averidge.
- +4. Simon (Jr).

### Second Generation

2

Elizabeth Alderson. See Second, #2, Generation of the Martin Family.

4

Simon Alderson (Jr) took part in "Cary's Rebellion" and escaped/fled to Virginia on 24 July 1711. On 8 May 1713, he as eldest son petitioned for the estate of his father. He acquired 420 acres of land on 20 February 1739. Served as the Treasurer of Bath 1720, 1727, 1731 and 1739; Justice of Peace, Bath, 1726, 1730, 1736 and 1739; member of Assembly 1731, 1739 and 1740; member of Grand Jury 1723 and 1726. He was named as "Captain" in the will of Thomas Boyd, 17 December 1725, but no basis for that title has been located. By his will, p. December 1740, he named wife Elizabeth and their children; his estate was inventoried in February 1741:

- 5. Levi, eldest son, Clerk of Beaufort County Court in June 1750.
- +6. John.
- +7. Sarah.
- 8. Elizabeth.

### Third Generation

6

John Alderson m. Mary - - -. He was clerk of Beaufort County Court during 1749-50. By his will, dtd 2 January 1761, they had children:

9. Levi.

10. Mary, see First, #3, Generation of the Smaw Family.

11. Simon, Captain 5th NC Regiment of Continental Line. He  
m. Anne Boyd, on 1 September 1785, no children.

### Societies

Descendents of Simon Alderson (Jr)(#4) are eligible for membership in the following patriotic/genealogically-related groups: Society of Colonial Wars, Colonial Dames of America, and Colonial Dames of XVII Century.

Descendents of the siblings of Simon Alderson (#11) are eligible for the Society of the Cincinnati (vacant at this time) and the Daughters of the Cincinnati.

### Comment

One Thomas Alderson was an Ensign in Captain Alderson's (#11) company, but his relationship has not been established. Lineal or collateral descendents would be eligible for membership in the Society of the Cincinnati and the Daughters of the Cincinnati.

## Baker - Eastern

There is a wealth of data on this family; however, the Author only included, for the most part, details of his own line of descent plus several relatives of personal interest. An interested reader will quickly learn that the cited sources include extant sources located over 20-plus years of research; further, the use of those references will expedite the preparation of a family tree/pedigree.

As to be expected, there were some conflicting data on the earlier generations. The Author's comments on those data are entirely objective and based upon the (i) details themselves, and (ii) cited comments of prominent individuals with close and identified family relationships or possessing professional and recognized contemporary access to then extant persons and many documents, all of which led to first-hand knowledge of family ties and relationships.

### First Generation of Record

#### 1

The earliest acceptably documented member of the family, to be found in the land patents, or other Colonial records of Virginia, was Henry Baker when he witnessed a deed in 1671. The records document that he was a wealthy merchant; Justice of the Peace (1685-98, 1702); Burgess (similar to the present-day State Senator)(1692-93); Major and then LtColonel commanding the Isle of Wight County militia. His relationship to a Henry Baker (will dtd 2 July 1700) and Captain Lawrence Baker (Burgess, will dtd 18 March 1681), both of Surry and Isle of Wight counties, has not been established.

Henry Baker m. Mary Blake (see Second, (#2) Generation of the Blake Family); Mary must have had some family ties, not yet established, to Elizabeth the wife of Lawrence Baker and to Mrs Silvestra Mill who was a dau of Edward Bennett. In addition to large holdings in Isle of Wight county, Henry owned 850 acres in Surry county. In his Isle of Wight will, dtd 10 June 1707, p. 28 July 1712, he said that he was age 67; his date of birth would have been 1640. He named wife Mary, who received five blacks and the use of certain of the lands, and left over 6300 acres, plus named farms, to their children:

- |                                    |                |
|------------------------------------|----------------|
| +2. Henry.                         | 7. Mary.       |
| +3. James.                         | 8. Sarah.      |
| +4. Lawrence.                      | 9. Catherine.  |
| +5. William.                       | 10. Elizabeth. |
| +6. John (not in will, in a deed). |                |

No further records have been located for the daughters. The will of Mary Blake Baker, dtd 15 March 1732, p. 23 September 1734, named the same children, less Elizabeth who may have d. between the date of her father's will and that of her mother. By Mary's will, she left 2000 acres to son William, which was located in Nansemond County and named "Wickums"; that land may well have been part/all of the acres willed to her by Mrs Silvestra Hill.

It is appropriate to include the following article which was taken from a handbill describing a tour of historic sites, dtd 21 May 1955, printed by the Smithfield Press:

Shoal Bay - Just five miles north of Smithfield on State Highway #10. Visitors turn right into the private lane of Shoal Bay Estate. This property was included in a vast land grant, known as Bennett's Plantation, to Richard Bennett by the Crown of England 1619. Colonization was begun at once and numerous settlements sprung up on the south shores of the James River. Sylvester Bennett Hill, daughter of Edward Bennett, brother of Richard, gave 550 acres of her share of the above grant to her friend, Mary Baker, wife of Major Henry Baker, who built the old Manor House in 1676, which was destroyed (circa 1900) by fire many years ago. The Baker family is credited with having laid out and established the first formal garden in Virginia, and the magnificent old box and the great maze of crepe myrtles remain to thrill the heart of the beholder from both the river side and the highway. The James River is seven miles wide at this point and the view unsurpassed. An old terraced lawn slopes to the river through a perfect amphitheater that nature beautifully and cunningly fashioned. A rustic bridge guides the visitor from the foot of the terraces to the sandy beach. This property passed from Lawrence Baker (24 May 1717) to Nathaniel Burwell, to Richard Cocke, to the Wrebb family, and is now in the possession of Mr W J Newton. In accordance with tradition, Richard Cocke demolished (ca 1810) the Old Bay Church, which was located on this Plantation, and used the bricks to build a brick house which still stands in the yard, and exchanged the bell in Richmond for a whiskey distillery. A quaint old smoke house with a high pointed A roof, which is believed to have been built at the same time as the old manor house, 1676, is still extant. Its moss covered cypress shingles and its heavy hand hewn beams, which extend through and beyond the walls, bespeak its age. It is still in use as evidenced by the many Smithfield hams and slabs of bacon suspended from the ancient beams.

### Second Generation

#### 2

Henry Baker, b. circa 1670, inherited 4550 acres which included 2500 acres at "Bucklands", a mill and seven blacks. He was a Sheriff of Nansemond County, colonel of militia and Burgess (1723-26). When the Virginia-North Carolina state line was resurveyed (1729), the property was located in Chowan County, NC, and when Hertford County was formed in 1722 (from a part of Chowan), those acres were in the present-day Gates County, NC.

"Bucklands" is located two miles, off Highway 13, on State Highway 37, in Gates County. The construction of the house, when last seen by the Author in 1972, was typical of that period with twin chimneys on either end of the two story house. There was what once was a very elaborate front porch, and across the rear was a porch which extended the entire length of the structure. On the southeast chimney, about three-quarters up, was the date 1775 in about foot high numbers. Also, the house was badly in need of paint and routine maintenance. The following clipping, paper not known, dtd 24 January 1931, is of interest:

Ancient Dwelling Yielding Antiques

Negro living near Gatesville nets handsome returns on home  
built in 1775

Gatesville, NC, Jan 24, 1931 - (Special) - A visit to the farm of C E Smith, negro, near Gatesville, reveals many interesting facts. Known throughout the Albemarle section as "Buckland" and the dwelling thereon having been built in 1775, it has for the past few weeks been the center of much activity. It has long been the objective of antique hunters. From time to time various pieces of furniture have been bought and moved away. Occasionally a set of hinges from some door or window would be bought, and in one instance four sets of window blinds went, with the hinges attached. A huge lock from the front door brought \$16, and so persistently were permanent fixtures being removed that the property was fast becoming a wreck. And now, after 156 years, "Buckland" goes modern. The woodwork from its many rooms, a winding stairway, mantels and doors have been sold and will be used in restoration work now in progress in another State. Mantels which fronted huge fireplaces, and beautifully carved panels above them, have been replaced throughout the house by plaster, only one room being still in its original state. With this interior transformation and an exterior coat of paint, "Bucklands" presents a picture far different from the "Bucklands" of old. An interesting fact in connection with the sale of its interior for \$1100. was that "imported walnut and mahogany", after being hauled six miles, was re-sold for \$3000. and proved to be more pine and poplar than anything else. Replacing an open fireplace used for cooking, is a modern range. New woodwork, plaster and paint aren't so bad to look at, and the most satisfactory part, as far as the owner is concerned, is the fact that there is now a cancelled mortgage in his strong box.

Henry Baker established, 1722, the first ferry across the Chowan River, not far from Winton, NC, between Mt Gallant Fishery and the mouth of the Meherrin River. He m., firstly, Angelica Bray (a dau of Colonel David Bray of James City County, Va), and secondly Ruth Chancy (1680-1753)(see Third, #9, Generation of the Chancy Family). His Chowan County will, dtd 9 January 1737 was p. 1 May 1739; the seal on that will will be commented upon later on.

### Children by Angelica Bray

The following is only a brief account, of the more interesting descendents; for those who may be interested, for an in-depth family history, are referred to "Southside Virginia Families", vol 1, J B Boddie, and the publications cited in "Author's Comments", near the end of this write-up.

Lawrence Baker inherited 1000 acres and four blacks. He served as Vestryman at the Old Brick Church (now called St Lukes) in 1724. Lived at Shoal Bay, see previous article, not far from Smithfield, Va. By his will, dtd 25 December 1758, p. 3 April 1760, he named wife Ann (received two blacks) and children:

- a. Richard, b. 23 December 1732, inherited "all" lands in Isle of Wight and Surry counties, Va. He served as a Burgess from Isle of Wight (1768-69); Clerk of Court, Vestryman (1747). By his will, dtd 12 July 1771, p. 2 January 1772, he named wife Ann and son Lawrence. The will of the latter, dtd 10 July 1801, p. 5 April 1803, is most interesting, excerpts follow, and he was the last of his branch of the family:

#### Excerpts from Will of 10 July 1801

Coat-of-Arms (this is the second reference to it) was left to his cousin Major General Lawrence Baker. He disinherited his sister Catherine and her son William. Goodrich Wilson named as a Godson; William Byrd (Suffolk) and Richard Byrd (Gloucester) were named as executors. Bequeathed his entire estate to Mary Simpson, a mulatto "formerly my slave and now free", when she comes of age. If she should die, the estate to be given to the people called Quakers to apply to purchasing and liberating slaves with preference given to "those who were my property". "I would it were in my power to entirely banish that execrable (SIC: detestable) practice but as it is not all I can do is to show my abhorrance of it". Family Bible left to Godson William Baker.

Comment: His remark concerning slaves is remarkable, because by page 39 of the NC Census of 1784-87, he himself owned 35 blacks, which was among the largest number recorded for that time. Also, bequeathing all of his estate to Mary Simpson provokes speculation.

### Author's Comments

Two Baker Family articles appeared in "North Carolina Genealogy", by W P Johnson: (1) Summer 1969, pp 2333-2342, article by Dr S J Baker, and (2) Summer 1968, pp 2114-2122, article by Ex-Judge B B Winborne. Mr Johnson described the latter article as "being much more sophisticated" (SIC: than the first cited). In addition, the first article is commented upon by Dr Clairborne T Smith (in "Southside Virginia Families", vol 1, pg 5) as "This, however is not too well authenticated and is not too accurate as far as the early generations are concerned".

In a letter from Colonel W L Saunders, a grandson of Dr S J Baker, then Secretary of State (NC), to his distant cousin Judge Richard H Baker (Norfolk), dtd 10 March 1891 (the letter is in the "Virginia Genealogist", pp 126-128, April-June 1971) stated: "Perhaps it will be well enough to call attention to the fact that when Dr Baker prepared his 'traditions', he was seventy-three years old, and had been separated from his family more than fifty years", and "Some points I am quite sure my grandfather was in error", and "Dr Baker was certainly wrong in much he said about the second Mrs Baker" (SIC: Ruth Chancy).

### Coat-of Arms

The Baker Coat-of-Arms have been described in (1) a letter, dtd 23 February 1891, from Colonel W L Saunders to his distant cousin Judge Richard H Baker (Norfolk), (2) "Virginia Genealogist", pg 244-250, October-December 1971 (letter dtd 23 February 1891), and the April-June 1971 issue, pp 126-128 (letter dtd 10 March 1891), (3) "Southside Virginia Families", vol 1, pg 5, J B Boddie, (4) "North Carolina Genealogy", Summer 1969, pg 2333, (5) "Virginia

Heraldica", pg 11, W A Crozier, (6) William and Mary "Quarterly", vol 4, pg 269, (7) "Seventeenth Century Isle of Wight County Virginia", pg 208, J B Boddie. The arms are described as "a castle and three keys on the shield with three white roses for the crest". Those arms are those of the Bakers of the village of Battle, East Sussex County, England which is located about 40 miles east south east of London. The original Baker home, Sissinghurst Castle, was "punished for the sins of its owner and converted into a poorhouse for 100 years because it was once owned by "bloody" John Baker, who as a judge in the days of Queen Mary Tudor, delighted in sending prisoners to the stake". It is not known for how long the Bakers resided at that castle; however, the first of the Bakers to be registered, by representatives of the College of Arms, was John Baker, in 1375.

The castle includes a commanding view, looking eastwards towards Hastings, of the battlefield where King Harold was killed, by an arrow in the eye, during the Battle of Hastings under the overwhelming forces of William the Conqueror (13 October 1066), after which England was dominated and subjugated by the Norman invaders.

NOTE: The letter, dtd 10 March 1891, was located, by the Author, in the "Blanche Baker Papers", UNC Library, Chapel Hill, NC. The letter, dtd 23 February 1891, was obtained, by the Author, from Bishop (Ret) Richard H Baker IV, of Baltimore, Md, a grandson of Judge Richard H Baker (Norfolk)(1826-1911) who was the recipient of both letters.

### Religion

Before the Revolutionary War, Hertford County, NC, was called St Barnabas Parish (Episcopal). The Bakers, of the Colonial period, were members of that church.

### Family Sword

The Author's mother told him (21 May 1969) that the sword, held by the Author who received it upon the death of his uncle Pembroke Baker, was believed to have been that of Captain John Baker (Third Generation, #14) but was really owned by Colonel Hayes See Fifth, #18, Generation of the Outlaw Family). The Author, about 1961, took the sword to the Smithsonian Institution, Washington, DC, and the experts identified it as post-Revolutionary because of its style and manufacturing marks.

## Baker - Midwestern

This chronology follows that of "Baker - Eastern". In view of the size of this branch of the family, it is being treated in a separate write-up to ensure that the descendants are properly presented. No attempt has been made, by the Author, to verify any of the material or data provided by the cited contemporaries who were most certainly in a position to tabulate their own family members. The text, therefore, presents a highly usable skeletal framework from which an interested reader could proceed to obtain the necessary documentation/proof for each generation to construct an acceptable pedigree/family tree.

## Bonner

Early in the Eighteenth Century, circa 1717, three brothers named Thomas, James and William Bonner were said to have come to Bath Precinct (now Beaufort County, North Carolina). The early records tend to indicate that they came from Maryland, or the Jamestowne area, where they had resided for some years. William settled in some adjacent county, probably Chowan. James settled in the town of Washington, NC, which before its charter (1782) had been called Pea Town; he d. unmarried and was buried on his lands located on the south portion of Main Street, just east of Bonner Street, which is across Main Street south of the present-day Episcopal Church. The Author's mother lives in that area, in a house located on lot #1 of Bonner's "New Part". His remains were later placed in the southwest corner of the churchyard, but the inscription plate has been removed and there remains no accurate date. Thomas settled on what he named "Bonner Hill" which is one mile north of Washington, on Market Street Extended. His estate was composed of "miles" of pasture and timber land. He was buried at Bonner Hill on what is now called "Sycamore", which is located just north of the present-day Oakdale Cemetery. His remains have since been removed to the southwest corner of the Episcopal Church yard, and there is a brass plaque covering the original inscription which reads: "Beneath this stone lies the body of Thomas Bonner, Esq., who departed this life 7th of April 1765, aged 75 years". The publication, cited in the sources, by Hathaway, named numerous descendants not included in this document.

She was born ye 21st of Feb. ye 1756, married ye 29th of Novr 1770 and departed this life ye 8th Novr 1779. Where flies my wife oh once lovely and fair. Her face cast in the mould of beauty where. Her eyes all radiance, her cheeks like snow. Whose cheeks once tintured with purple glow. Where's those ivory teeth and lips of celestial sound. Her lips like lily's set with roses round. Where's those active fingers that with artful ease. Which in her house once taught her family to please. Where's that sprightly wit even loves divine delight. All sunk in everlasting night. Earth take her bones chaste soul she smiles at rest. Whilst her image lives immortal in my breast'. The note continued (held by the Author): 'The story goes that her husband was away on one occasion when at a party a game of forfeit was played and a young man kissed her (the forfeit). Material, notes, provided to the Author by W A Ellison, Jr, in July 1962. Those data were based, for the most part, on details provided by Mrs N B (Cora) Mariner, in 1936-37, to William Andrew Ellison, Sr: both were great-grandchildren of Thomas Bowen and his wife Mary Adams. Mrs Mariner's material would, therefore, have been quite accurate, as to the line of descent and relatives cited, because she would have had direct and personal knowledge of those close relatives as well contemporaries in a position to provide data: "Parson Thomas Bowen was a presiding elder in the Methodist Church and he came from the Baltimore area. He married Mary Adams, a dau of James Adams. Mary Adams m. three times: #1 to Mr Palmer (a grandson of Sir William Palmer) and they had a son who was killed in young manhood by kick of a horse; #2 to William Rowland (NOTE: the family spelling is unique, and the Author had an uncle whose given name was spelled the same way); #3 to "Parson" Thomas Bowen.

## Chancy

### First Generation of Record

1

Edmund Chancy (Sr), b. circa 1642 probably England, d. prior to 25 March 1680 in Albemarle County, North Carolina. The name of his wife is now unknown. The Colonial records prove that he was a most influential individual, a Quaker, and a member of the Colonial Governor's "Grand Council" (Peter Carteret)(1672); he was most likely to have been involved in "Culpeper's Rebellion" (1675-1689) because 7 of the 9 other members of that Council were known to have been involved, and they were also Quakers. He left extensive property, both real and personal, to his children. There is a reference to his will, dtd 8 November 1680, which has not been found. Mrs Margaret Culpeper was named the executrix of his estate, completed 29 November 1680, and his children were as follows:

2. Hannah, b. circa 1667, m. Thomas Burnby prior to 2 April 1684.
3. William (Sr), b. circa 1669, m. 2 November 1749 to Deborah Symons, on 2 November 1749. His will dtd 1 July 1746, p. 4 August 1749.
- +4. Edmund (Jr).

### Second Generation

2

Edmund Chancy, Jr, probably b. circa 1671, d. will dtd 17 March 1753, p. July 1754 in Pasquotank Co, NC. He m. Sarah Keile (see Second Generation, #2, of the Keile Family). On 19 September 1713, being a Quaker, he gave five pounds of money to support the Indian Wars, by way of fine for "not going to war with carnal weapons". In addition to property inherited from his father, he received land grants of 553 acres (1714) and 1031 acres (1729-32) in Pasquotank County, NC. By his will, dtd 15 March 1753, p. 18 July 1753, he left considerable property, cattle, furniture, etc., to each of his children:

5. Stephen, b. circa 1699, m. Rachel and they had son Edmund.
6. Jacob, b. circa 1703, m. Mary Conner, about 1731. Per Hinshaw, he was disowned, by the Quakers, for taking the Oath of Allegiance and for marrying "out of the Society", on 7 July 1735. They had son Edmund and dau named Mary.
7. Zachariah, b. 2 April 1705, m. Rebecca Pritlow on 10 January 1727. He was a Deputy Sheriff... son Edmund and dau Hannah.
8. Daniel, b. circa 1707, m. Anne Overman. They moved to Opeckon, Va, on 4 June 1737, where, in 1738, he purchased 264 acres known as "Flat Springs", near the head of the Tuscara which is a branch of the Opeckon.
- +9. Ruth. By her father's will, she was left a portion of the estate; her children were named... John Baker, Mary Degrafenred, Blake Baker, Sarah Baker, Ruth Baker, Zadock Baker.

### Third Generation

2

Ruth Chancy, m. Henry Baker. See Second Generation, #2, of the Baker Family.

- NOTES; a. Do NOT try to correlate Hannah Nicholas (b. 6 June 1706) as the wife of Edmund, Jr (#2). This Hannah m. Ezekiel Maudlin, Jr, who d. in 1732.
- b. Do NOT try to correlate Sarah, who was previously m. to Joseph Barrow and Joseph Pritchard.
- c. There was a Sarah Nicholson who m. one of the three grandsons of Edmund, Jr: there were three of the same name born to three of his sons.

#### Author's Comments

In "Ye Countie of Albemarle in Carolina", pg 46, by Powell, Edmund Chancy (Sr) was cited as "in the neighborhood of 100 years of age at the time of his death in 1753". That Author was in error, as proved by the above text and the following source documents, in that father and son were listed (in error) as one person. Further, the signatures of Edmund (Sr), pg 20 of that document, and the one on a document in "Private Collection" (PC 224.1) ("North Carolina under the Lords Proprietors", folder XIX, NC Archives) in no way resembles that of Edmund, Jr's will dtd 15 March 1753, p. 18 July 1753.

## Duggan

The earliest documented member of the family name was John Duggan when, on 9 August 1725, he bought 250 acres on Smithwick Creek, Bertie Precinct (now Martin County), County of Albemarle, North Carolina, and the deed was signed by Christopher Gale. On 21 March 1743, he was granted 100 acres in Bertie Precinct and 500 acres in Chowan County. Again, on 29 March 1752, he obtained 100 acres, and then 200 acres on 7 September 1762. There was a Thomas Duggan, will dtd 9 May 1754, whose relationship is not now known; he was perhaps a brother or even the father of our John. It must be noted that Tyrrell County was formed, 1729, from parts of Bertie, Chowan, Currituck and Pasquotank counties; Martin County was, 1774, formed from parts of Halifax and Tyrrell counties. All of the above cited acreage, of John Duggan, were located on/near Smithwick Creek in the present-day Martin County, NC.

### First Generation of Record

1

John Duggan, Sr, was an extensive planter, as seen above. By his will, 3 March 1763, Tyrrell County (now Martin), he had children:

2. John, Jr, will dtd 4 November 1763, also named his brothers and sisters, plus property given to each.
3. William, Sr.
4. Lanier
5. Aaron.
6. Josiah.
7. Elizabeth.
- +8. Millicent.
9. Ann.
10. Rhody.

NOTES: the will of John, Sr, identified another 100 acres which he owned on the north side of the Roanoke River in Bertie Precinct (now Bertie County). By a deed, dtd 7 February 1737, John, Jr, and William acquired 640 acres on Turkey Neck/Peters Swamp/Devil's Gut, on the south side of the Macatuk River, which is now known as Smithwick's Creek.

### Second Generation

Millicent (Milley, Chloe). See Second, #3, Generation of the Robertson family.

### Societies

The grandson of William Duggan, Sr (#3), brother of Millicent, was (Captain) William S Duggan (b. circa 1801 in Pitt Co, d. there after 1848). He was commanding officer, Company "E", First North Carolina Regiment of Foot Volunteers, Mexican War, organized at Tarboro, NC, December 1846; called into the service of the United states, at Wilmington, NC, on 15 January 1847, honorably discharged

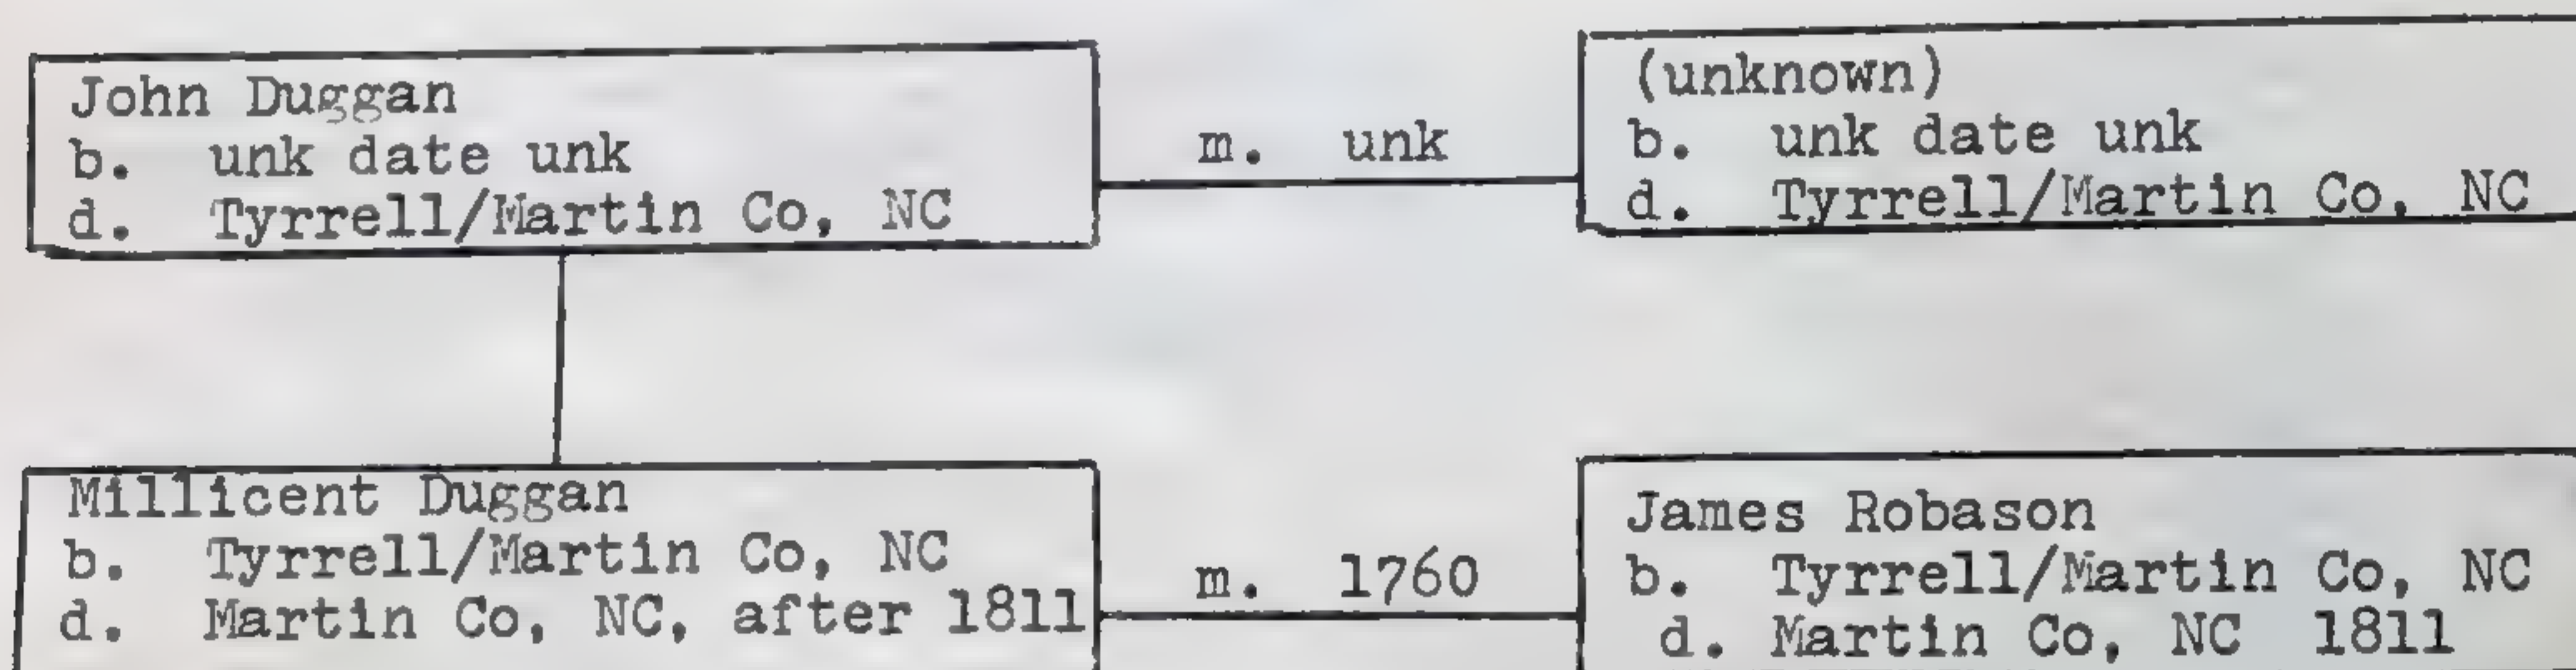

at Fort Monroe, Va, on 28 July 1848.

Descendents, or collateral descendents, of Captain Duggan are eligible for membership in the "Aztec Club of 1847". This group was formed in Mexico City, by a group of the officers and membership is based on descent (or collateral descent) from an officer who served in the Mexican War. It is similar to the Society of the Cincinnati, except more than one descendent can join on the same ancestor who served in the Mexican War.

## Ellison

This prominent Beaufort County, North Carolina, family furnished a number of Sheriffs for the County. The first member of the family, to be documented in Colonial North Carolina, was James Ellison, the immigrant who came from the Isle of Man, in England, in the year 1732 to Bath, NC. He was a widower who had one daughter and who came over with him. From the number of public conveyances, to and from him, he must have been an extensive land-owner. One purchase, 2 September 1752, was for 640 acres which at that time included what is now the entire town of Vandemere located in Pamlico County. On 1 May 1748, as the Justice of the Peace, he presided over the Court at which John Stevens protested the loss of his goods which the Spaniards took from his ship.

About 13 December 1915, R T Bonner, a genealogist of that time and very well known for his professional and in-depth researches in Colonial and contemporary family records of Eastern NC, recorded that about three and one-half miles east of Washington, NC, on the farm of Thomas Smaw there is a monument: the north side recorded that "William Brown Ellison, son of Alderson and Lucretia Ellison, died and lies buried at Blounts Creek, A.D. 1814, aged 32 years". "Thomas Ellison, son of Alderson and Lucretia Ellison, died and he is buried at Durhams Creek, A.D. 1834, aged 62 years. On the other side is "Henry Ellison, son of Alderson and Lucretia Ellison, died A.D. 1801, aged 32 years". On the other side is "This humble monument was erected in 1858 by James Ellison, Sr., son of Alderson and Lucretia Ellison to preserve from desecration this spot where his revered father and mother and a kind brother repose and to perpetuate the memory of two other brothers not buried here". On the other side is "Alderson Ellison, Sr., Esq., born at Bath, Beaufort County, NC, died in March 1808, aged 65 years. Mrs Lucretia Ellison, wife of Alderson Ellison, Esq., born in Accomac County, Va., died in June A.D. 1822, aged 82 years". The Author visited that area, in mid September 1976, and made a thorough search; no residents could identify the stone... an old black showed me what he recalled as the location, but the stone was not found.

## Fourth Generation

11

James Bonner Ellison, born 19 August 1794 in Beaufort Co, NC, d. there prior to September 1838; his will was dtd 2 May 1838 and probated September 1828. He m., about 1825, Mary Bowen (b. 16 April 1801, d. at childbirth on 8 January 1833 (see Second, #4, Generation of the Bowen Family), and she was buried in the Washington, NC, Episcopal Church yard. After her death, he m. Nancy Harvey. In his will, he named uncle James Ellison; left twelve blacks to be split amongst his wife and children...left wife one black mare/gig, one bed, furniture, one cow/calf, one safe and one "beaurough".

It seemed appropriate to now insert two letters, written by W A Ellison, Jr. He was a most interesting cousin; d. December 1970, no children; graduate, biochemistry, Duke (then Trinity), and PhD (less thesis) from Harvard; worked about 30 years as General Manager for Atlantic Coast Fisheries, out of New York and Boston; served with the AID Program, Taiwan, Nationalist China, where he was employed to teach the Chinese how to fish in the Deep Blue waters.

(#1) Letter to his cousin, Mrs J O (Emma Robertson) Bowen, dtd 29 August 1952: "Papa was my authority for the statement that James Henry, our grandfather, was named James Bonner. He was raised in Washington (SIC: NC) at the old brick house in the front yard of which J H Robertson (Jim)(SIC: father of the Author) was buried. There was a cousin living in the same house (SIC: no longer there) also named James Bonner Ellison, and Grandpa's name was changed to James Henry for distinction. Grandpa went to Williamston (NC) in the late 1840's to read law under his cousin Bill John Ellison (Bill John married one of the Hymans). At the time he lived with Bill John in the Old Ellison home which was later bought by Wig Watts. He modernized it even in our memory. Bill John, after the Civil War or just before, moved to Fayetteville where he practised law until he died. His daughter, cousin Margaret, had a sister whose name I forget but who visited in Williamston every year. Perhaps you remember them, since I recall them well. They operated a finishing school for young ladies in Fayetteville. You asked how long Grandpa lived with the relatives in Washington. I can't tell you this or the exact relation, although I believe he was Grandpa's uncle. Grandfather was born in the old Marsh house in Bath (NC) while his mother was visiting her sister, the wife of Jonathan Marsh. The home of Henry Ellison or greatgrandfather Ellison was on the south side of the Pamlico River near the town of Aurora. In keeping with the times, it was named and called "Welcome Hall".

(#2) Letter to the Author's mother, dtd 21 December 1960: "Grandpa James Henry Ellison was an orphan, raised in part by a cousin of his father's in Washington (NC); in part by Betsey Roland (sister of John Roland whose house still stands about three miles from Bath). The old graveyard is there. Uncle John was named after this Roland (Rowland). Grandpa Ellison came to Williamston to read law under his cousin Bill John Ellison (who married a Hyman and who later moved to Fayetteville and whose two daughters visited us for

years. They ran a private school for girls. Grandpa, your great grandfather married Charlotte the daughter of Sam Hatton who also came to Williamston before the Civil War and whose home still stands (modernized and remodeled about 30 years ago). His granddaughter, Mary Bonner Hatton still lives in Williamston. She married George Gurganus and one of her sons is a prominent attorney in Williamston. Her father, John Hatton, I remember well as will Jose, Emma, Louise and Rowland (SIC: aunts and uncle of the Author). Uncle John was a very fine metal worker and ran a blacksmith shop. Speaking of vocations reminds me that grandpa Ellison never practised law. After the Civil War he became a cabinet maker, and incidentally for many years he made all the coffins for Williamston people. Somewhere among my impedimenta I have his folding metal rule which he carried around to measure the bodies. (SIC: The Author wrote W A Ellison's wife, Clare, in the Summer of 1976, in an attempt to obtain that rule; no answer to date). Coffins in those days were variable in length according to the height of the individual. They were not the standardized products of today. Incidentally, Grandpa learned his carpentry helping to build the "ram Albemarle", which was destroyed at Plymouth (NC) by Lt Cushion and his torpedo ! Grandpa's name was originally James Bonner Ellison (James Henry Ellison's father was named James Bonner Ellison). He was, therefore, a Junior. The cousin with whom he stayed had a son by that name also; so, he changed Grandpa's name to James Henry. Grandma was named after her maternal aunt Charlotte Andrews. Charlotte Isabel Hatton's grandmother Isobel Gainer. Mary Belle Gay nee Ellison (Uncle John's daughter and Jim's (father of the Author) cousin is also named Isobel. I mention these names because first names and middle names are sometimes significant in running down genealogies. Incidentally, papa's named after grandpa's half brother William Andrew Ellison. I know nothing about him except Papa told me that he was a contractor in Norfolk (Va). This would indicate that Grandpa was married twice, although I have never seen any record of it",

#### Fifth Generation

27

John Pembroke Harrell, b. near Hamilton, Martin County, but located in Edgecombe County, 22 June 1828, d. there 16 April 1885. A distant cousin wrote the Author, 29 September 1964, and stated that he was called "Colonel"; to date, no basis for that title has been found..perhaps from the Civil War but proof of same is gone. He m. Sarah An Rebecker Garriss (b. 20 February 1836, will p. 6 January 1907 in Chowan County)(see Fifth, #23, of the Garriss Family), on 20 May 1858. After his death, she m. Mr Stacy, they lived at 108 Blount St in the "West Custom House", built in 1775, Edenton, NC; that house is quite historic, built on the "commons" very near the river and the old Court House. Mr Stacy was an extensive landowner and reputed to be of wealth and position. By his will, dtd 11 September 1884, p. 27 April 1885 in Edgecombe County, John named his children:

- +30. Paul Wade.
31. Sallie John. See Seventh, #36, Generation of the Baker Family. She attended: Chowan Baptist College in Murfreesboro, St Mary's Junior College in Raleigh and the Norfolk College for Young Ladies in Norfolk, Va.

## Sixth Generation

30

Paul Wade Harrell, b. 28 December 1869. He m., but there were no children; after his death, his wife m. Albert Forebrook. Paul was one of the least known member of the family, because he left home at an early age and later became what is now called the public relations manager for Wild Bill Cody (Buffalo Bill). How, or why, he became a member of the Barnum & Bailey Circus is not known. He is known to have travelled extensively, and he brought the Author's mother a complete tea service of eggshell porcelain from Japan, during the early 1900's. He was instrumental in bringing Buffalo Bill, to Ahoskie, NC, for a performance which was arranged by his brother-in-law (Raleigh J Baker) in support of his real estate sales promotion campaign.

Details on the family names, in the right column, appear in the separate write-ups under those family names.

## Hatton

The text of this family sketch will vary considerably from all of the others in this document. That is because the Author believed that, at the date of writing, the pedigree as shown contained but one "gap" in the line of descent as will be seen. It was also believed that the "gap" will be proven by as yet unlocated documentary proofs. The text included material already identified in that this will shorten the research time relating to the earlier generations.

The earliest documented member of the family name was found in Elizabeth Cittie, Va, during the Muster taken, between 20 January and 7 February 1624-25, during the term of office of Gov Sir Francis Wyatt. That area later became Lower Norfolk County (1637) and the family resided at/near "Hatton's Point" on the Western Branch of the Elizabeth River and on the south side of Chuckatuck Creek.

### First Generation of Record

#### 1

John Hatton, age 26, came over in the "Tresorer" in 1613. In his Muster was Olive Hatton, age 32, who came over in the "Abigall" in 1620. Included in his inventory were: four barrells of corn, 200ct (centum/hundred) of fish and one peece (gun). From that record, it is not clear if Olive was his wife or his sister; it is assumed that the latter is the case, based on their ages, and because in his will, dtd 17 February 1649, p. 18 June 1650, he named wife Dorothy (d. after 1649) and son; by other sources, there were at least three sons:

- +2. John.
- +3. Francis
- +4. Robert.

### Second Generation

#### 2

John Hatton, b. circa 1587, eldest son, was recorded as a "captain" (of what has not yet been identified) in Elizabeth City County, Lower Norfolk, Va. He m. Hannah and they had, probably among others (his will was badly torn):

- 5. Ann, m. Mr Gregory.

#### 3

Francis Hatton, Planter, on the Western Branch of Elizabeth River in Lower Norfolk County. By his will, dtd 27 December 1687, p. 16 July 1688, he named wife Sarah and his brother John.

Robert Hatton, m. prior to 1659 Elizabeth. By his will in Lower Norfolk County dtd 2 February 1675, p. 16 February 1681, he named wife Elizabeth (d. after 1675) and his brothers Francis and Captain John, plus children:

- +6. Robert, not yet age 21.
- 7. Elizabeth, not yet age 21.

Third Generation

6

Robert Hatton, of Lower Norfolk County, will dtd 26 October 1719, p. 1720, witnessed by James Grimes (see that family sketch) named wife Eleanor and their children:

- +8. Francis
- +9. Robert
- 10. Ann, will dtd 21 July 1743, p. 20 January 1744, named her brother Francis and his dau Ann. She m. John Barney.

Fourth Generation

8

Francis Hatton, Planter, Western Branch, Norfolk County. He witnessed a deed, on 20 March 1723, pertaining to 320 acres of land on the Meherrin River, adjacent to the Chowan River. By his will dtd 10 February 1745, p. 1746, he named wife Catherine and his brother Robert, and children:

- 11. Ann
- +12. John, inherited the manor plantation. This fact, by the Law of Primogeniture, probably in effect at that time, would lend credence that he was the eldest son.
- 13. Lewis, cited as a "privateer" in the Revolutionary War.

Robert Hatton, quoted as a "captain" (of what has not yet been located). He m. Sarah (a dau of George Wilson) but the names of their children have not been found as of date of writing. There is a North Carolina Colonial record which referenced one Robert Hatton (perhaps this man) as being paid as "Provost Marshall" on 29 September 1735. A son of his must be identified, because he would be the "gap" cited above, and he would appear as number 14.

Fifth Generation

12

John Hatton, latter cited as a "captain" (of what has not yet been located), a member of the Committee of Safety for Pitt County, NC, during the Revolutionary War. He had, probably among others, a son named John who m. Frances (a dau of John Cason).

14

This is the "gap". This man has to be a son of Robert, #9, above, if the line of descent is as believed to be so. Among others, would be a son:

+15. Francis Hatton.

Sixth Generation

15

Francis Hatton, first appeared in the Census for Northampton (later Edgecombe) County, NC, 1790. In the 1790 Census, shown as having four blacks; in the 1800 and 1810 Census, five blacks; 1820 Census, twelve blacks plus eight free blacks. By his will, dtd 6 December 1827, p. May 1828, he named wife Frances Grimes (b. circa 1765, Edgecombe County and d. there)(see Third, #9, Generation of the Grimes Family) and children:

- 16. Sally.
- 17. Polly.
- 18. Juley.
- 19. Nancey.
- 20. James Kinchen, b. 1815, m. Mary/Polly Ann Blount (b. 1826) who was a dau of Thomas H Blount.
- +21. Samuel
- 22. Betset, m. Mr Edmondson.

Seventh Generation

21

Samuel Henry Hatton, b. 1806-07, Pitt County, NC, d. 21 October 1863 in Martin County, NC; his date of birth computed by the 1860 Census. In April 1859, he was appointed one of the Whig delegates to represent Martin County at the District Convention. He m. prior to October 1831 Susan Andrews (b. Pitt County, 1807-08, d. Martin County on 20 February 1872)(see Fourth, #9, Generation of the Andrews Family). He was a Master Mason, 1856-61, in Skewarkee Lodge #90, and then Master of that Lodge from 1862-65 in Williamston, NC. By the 1860 Census, they had children:

- 23. Lewelling, b. 1832, killed at Kinston, NC, Civil War.
- 24. Sarah, b. 1838.
- 25. John Henry Dawson, b. 11 December 1840, d. 29 November 1840. Served as a private, Company "A", 17th Regiment, Confederate States of America (CSA)troops.
- 26. Wiley, b. 1843, killed at Petersburg, Va, Civil War.
- +27. NOTE: dau Charlotte Isabella, b. 15 January 1836 was then already married (1856) and so was not included in 1860 Census, as a member of her father's household.

## Eighth Generation

27

Charlotte Isabella Hatton, see Fourth, #38, Generation of the Ellison Family.

### Societies

Descendents of John Hatton (#1) will be eligible for membership in the Order of the First Families of Virginia (FFV) when the "gap" is filled, and providing the person is "acceptable". Descendents of John Henry Dawson Hatton (#25) either by collateral or lineal descent: United Daughters of Confederacy, by lineal; lineal or collateral descent for Sons of Confederate Veterans. It is likely that the descendents of Number 14 may be eligible for membership in the Sons of the American Revolution and the Daughters of the American Revolution,

All of the counties, in northeast NC, have been checked with no positive results. The wills and deeds of possible interest will follow. Personal examination of the county records have not been productive. There is a possibility that the NC Archives, Raleigh, may contain some data not held at the county levels.

Form letter, NC Archives, 6 Jun 78: no record of surname of Hatton located in "Northampton County Original Wills and Estate Papers".

NC Secretary of State letter, 17 Jun 78: a thorough search of land grants do not include grants issued to Francis, Robert or John Hatton in the counties of Bertie, Northampton or Edgecombe.

The Tarborough, NC, "Free Press", issues of 13, 20, 27 Oct 1827 and 3 and 10 Nov 1827, contained an ad for sale of 800 acres of land, located 11 miles east of Tarborough and 10 miles south of Hill's Ferry, owned by Francis Hatton. (NC Archives microfilm, 2 Jan 1827-29 Dec 1829 reel).

Francis Hatton will in Will Book F, pg 86, Court House, Tarboro, NC, dtd 6 Dec 1827, proved May 1828, does not name either of his parents. See also, Colonial Roots, pg 76, by H L Robertson, and Abstracts of Wills of Edgecombe County, 1956, pg 158, by Williams and Griffin.

It is interesting to note that the location of the above cited 800 acres, appears to be between highways 42 & 44 and 10 miles west of Hassell (in Martin Co). That location is very close to, if not adjacent to, the land owned in 1770's by John Lewelling. This close location may well account for the fact that Francis Hatton married Frances Grimes, a dau of Thomas Grimes and Chloe Lewelling...that is to say, they could well have met over a period of time when Frances was visiting her uncle John; Thomas Grimes, see pg 66 of Colonial Roots, was a large land-owner, also in Edgecombe County, and so a person of means comparable to John Lewelling....location of his land has not been searched. The concept, however, appears logical.

Francis Hatton died between 1st and 15th of March 1828...see deeds pp 198-199 (NC Archives Reel 36, Book 19 for 1827-30). James was the executor of Francis' will and by a deed, pg 199, sold 750 acres (more or less)(Francis' land) to Allen Jones for \$1500.00, Edgecombe County...bounded by James Knight, Ephraim Barfield, Edmund Barfield, William Staton and Asa Jones. This amount of land seems to equate, exactly, with the 800 acres in the "Free Press" ad of ~~1927~~:

  3. Northampton Co formed 1741 from Bertie Co
  4. Edgecombe Co formed 1741 from Bertie Co

Book 14, pg 332: John Hatton, of Warren Co, sold to Benjamin King of Northampton Co, 224 acres in Warren Co. Deed dtd 12 Dec 1796 and proved Aug 1797

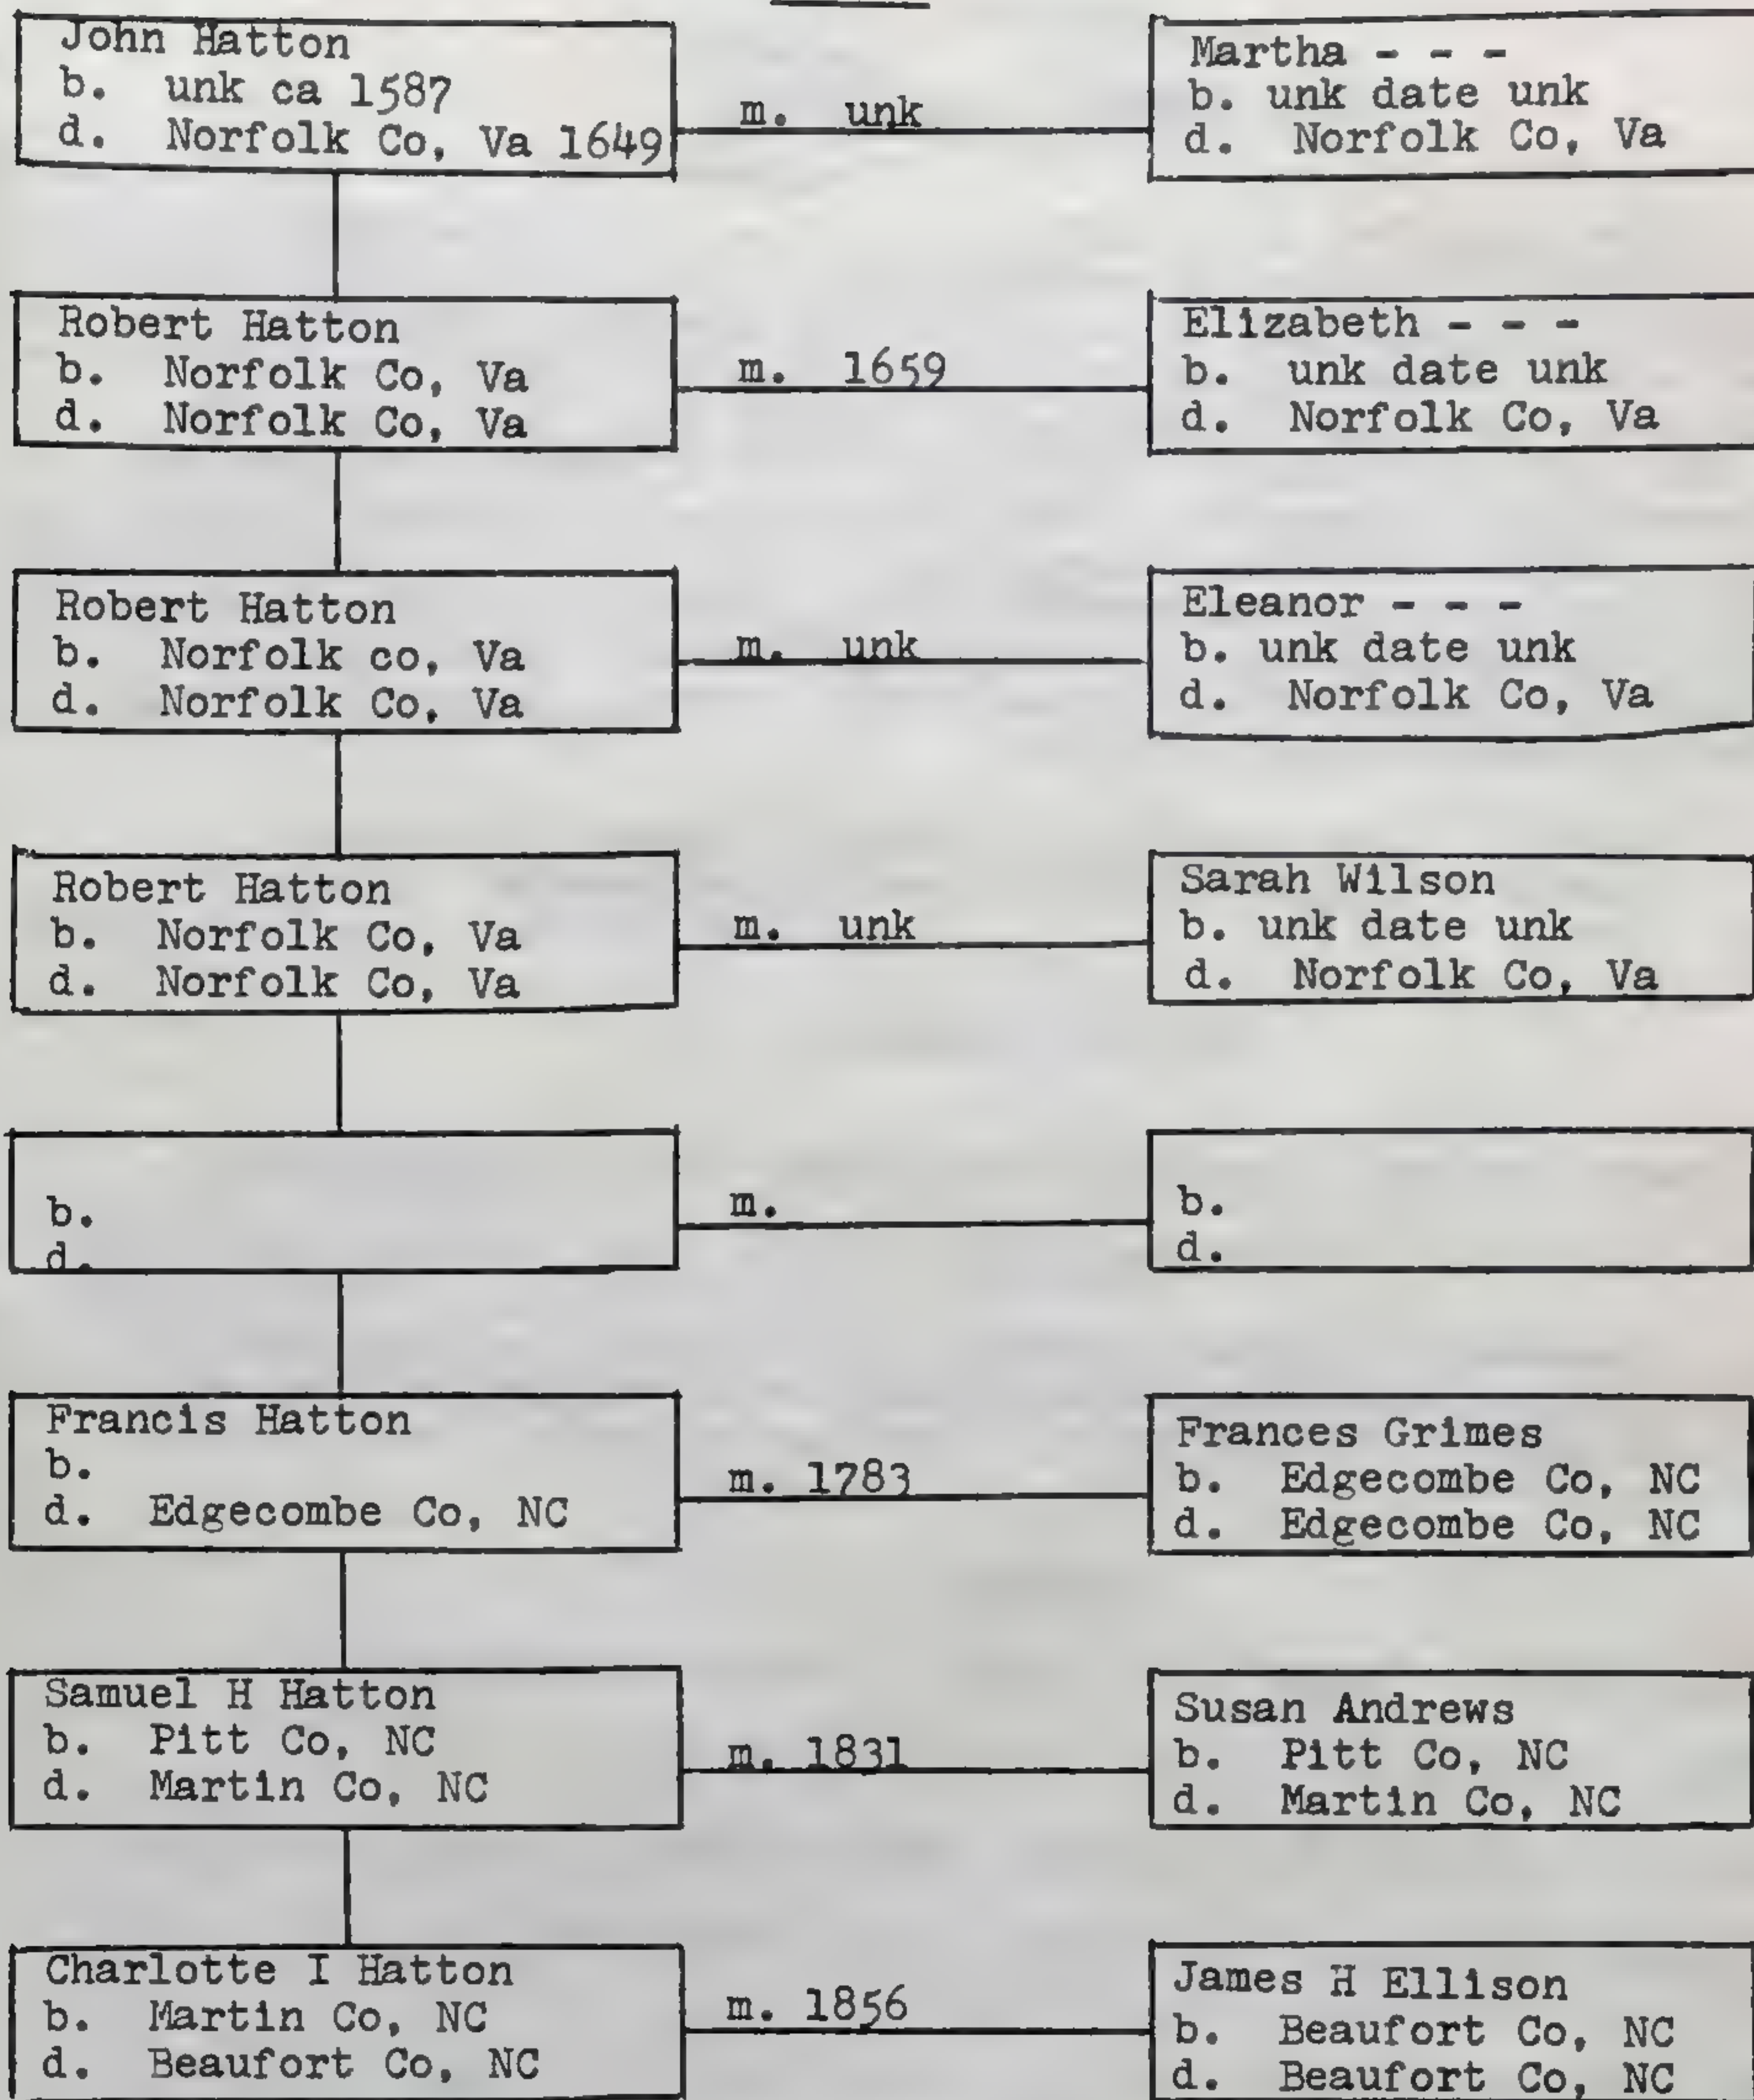

- Notes:
1. The 224 acres could well be the same land; however, the dates make it confusing !
  2. John Hatton shown both as: of Northampton Co and as of Warren...confusing ! Perhaps shown as being of Warren because he bought the land there ?

## Keeling

### First Generation of Record

#### 1

Thomas Keeling, b. 1608-1613, d. after 17 October 1664 and the date of his inventory in 1665. He m. Anne, before 1637, and she was b. in 1618, had come over in the "John and Dorothy" in 1634; she d. before 18 January 1688. In the Colonial records, he is recorded as being a Lieutenant, but the basis for that title has not been established; it was probably a County title, as was common during the period. Named a Vestryman of Lynnhaven Parish (1640), Justice (1656), Commissioner (1660), Burgess (similar to the present-day state senator, from Norfolk County (6 January 1639)). His known property included 350 acres. After his death, she m., by 22 June 1666, William Jermy. Thomas and Anne had, very probably among others, children:

2. Thomas, b. before 1645, d. before 25 May 1666 when he drowned crossing Bennetts Creek by horseback.

## Lewelling

This family name is variously spelled Lewellen, Lewellin, Llewellyn and Lewelling. The Author believes that those are the Anglicized version of the old Welch Llewelling family who sired the Tudor kings of England.

### First Generation of Record

#### 1

Edward Lewelling was in the Southern Branch, Elizabeth River Parish, Lower Norfolk County, Virginia, as early as 16 August 1709 (and probably considerably prior to that date), when he was one of the witnesses to the will of Edward Hews, Senior. By his will, dtd 10 January 1752, p. 16 April and 21 August 1752, he named wife Margaret and their children; he did not name son William as will be seen later. All children, and his wife, were left blacks and considerable other properties.

2. Thomas, inherited the home manor plantation.
3. John.
4. Benjamin.
5. Edward.
6. Lewis.
7. Elizabeth, m. Mr Bustin.
8. Lydda, m. Mr Ewell.
9. Mary.
10. Lettisha.
11. Lettee, m. Benjamin Bunting.

### Second Generation

#### 12

William Lewelling was not named in the will of his father because he was obviously infirm; this is a fact because his will was proved (16 April 1752) on the same date as his father's. The situation must have been that his father did not name him in his will because he had already amassed considerable property and was of such means that his father did not see fit to recognize him with further property, etc. Further, this condition seems to the Author, at least, that he was the eldest of the siblings. By an indenture, dtd 18/27 November 1728, p. 21 February 1728/29, from his parents, he cited as a shipwright, for five shillings/pounds acquired 300 acres of land; there was a stipulation that, as a rental fee for one year, to be paid at the feast of Saint John the Baptist, one ear of Indian corn. His will, Norfolk County, dtd 28 January 1751, p. 16 April 1752, named wife Frances and the same children as her will, Martin County, NC, dtd 29 November 1770, p. 7 January 1775. It should be noted that, after his death, she and all of the children had removed to North Carolina. The names of the children as stated in each will are as follows:

- +13. John.
- 14. Sarah.
- 15. Franki (Frances)(Franke).
- 16. Anna.
- +17. Chloe.
- 18. Lidia/Leddia
- 19. Abbe.
- 20. Annas.

### Third Generation

#### 13

John Lewelling m. Mary and they had several children who were named in his will dtd 2 October 1793, p. August 1794. He was in Tyrrell County, NC, as early as 23 April 1765; it must be noted that Martin County was formed from Tyrrell in 1774. In addition to managing his large estates, he was Commissioner for Peace in 1772, and a captain of the militia. He was a member of the Church of England. His home was just West of a fork at the present-day State Road #1530, and his estate located on #1529. The records called him the foremost Tory in Martin County, when he was sentenced to death for high treason on 23 September 1777, and put in the gaol (jail) in Edenton, NC. He was released via the efforts of his wife who had highly influential friends on 2 December 1777. He never approved of the war with England, and often quartered British officers in his home or in adjacent lodgings, all of which were part of the reason he was put in jail.

### Societies

Lineal or collateral descendants of John are eligible (along with his brother-in-law, Thomas Grimes) for membership in the genealogically/patriotic related group: The Order of the Loyalists and Patriots of the American Revolution. It is of some interest that the Author was one of the group which established this Society, Washington, DC, on 18 September 1973. The formation is described in "The Hereditary Register of the United States of America" pg 393, 1974.

pg 16: the 800 acres, Lower Norfolk County, granted on 21 Apr 1690, on Southern Branch of Elizabeth River, was awarded to Hugh Cambell on 28 Oct 1697.

(1) The Chesapeake Bay of Yore, by Frederick Tilp, Alexandria, VA, 1982. On its pg 80, the definition of a shipwright: English maritime guilds dictated that the shipwright perform all work on structural timbers of the hull. The ship's carpenter did the non-structural work leaving the "cosmetic" finishing work to the joiner. However, in small yards, the boatbuilder did everything even the caulking, rigging and painting. The master shipwright in larger yards made the plans of the ship, prepared the timber, organized and carried out the construction work, and supervised the launching. He was the shipyard foreman; if something went wrong - it was his fault. He knew exactly what type of tool was to be used for what purpose such as the axe, adze, hammer, maul, chisel, gouge, caulking iron, mallet, pitch ladle, treenail maker, auger, plane, clamp, screw driver, cramp, puller, scraper, punch, etc. On through pg 88, there are excellent definitions and explanations of the various skills employed in the construction of a ship...you should read them because they show the magnitude/scope of expertise required to build a sea-going vessel.

## Martin

John Martin, Planter in Lower Norfolk County, Virginia, was the earliest documented member of the family name to be located in the Colonial records of Virginia and North Carolina. He, and his brother Joel, either came over in the "Margaret" (5 March 1633) or in the "Safety" (10 August 1635); the records included their names for both ships and those dates. This John cannot be, and must not be, confused with another extremely prominent individual of the same name who owned "Martin's Hundred" in the vicinity of Jamestowne.

### First Generation of Record

#### 1

John Martin, b. circa 1616 in England, d. before May 1666 and his own inventory dtd 25 October 1666. He m. Ann Keeling (see Third Generation of Keeling Family, #3). They lived in Lynnhaven Parish, Lower Norfolk County. He served as Churchwarden (1645), Justice (1650, 1655, 1663), Burgess (1651) and Commissioner (1660). The records prove that he was an extensive land owner, acquiring somewhat over 3000 acres, some on Bennets Creek, between 1651 and 1665, including "Ye Dudlies" plantation. He was a friend of Adam Thoroughgood, a famous personage of that area who built what is now the oldest brick home in America; their children and grandchildren intermarried. After his death, Ann m., by October 1666 John Oakham, and she d. before 15 August 1672. By wills, inventories, etc., he left extensive real estate to include four blacks and two seal type rings, and his children by all wives are named in the source data. By third wife, Ann Keeling, they left a son:

+2. Joel.

### Second Generation

#### 2

Joel Martin (Senior), b. before 1666, came to NC from Va prior to July 1703, on a sloop owned by Colonel James Wilson, with his entire family. The fare was four pounds of "current Virginia money".

In 1704, Governor Thomas Cary (later better known for the "Cary's Rebellion of 1711" transferred 60 acres of land to Surveyor-General John Lawson, Joel Martin (Sr) and Simon Alderson (Sr) for the purpose of laying out the town of Bath, NC. The site, first settled in 1690, is located on the north side of the Pamlico River and had been known by the Indian name of Pantico. The Assembly approved the incorporation on 8 March 1705, and the three named were appointed its first commissioners, all cited as men of power and wealth.

Three Proprietary governors (Robert Daniel, Thomas Cary and Charles Eden) used the town for their seat, thereby making it "de

facto" the first capital of the colony. Blackbeard, the pirate, (Edward Drummond, alias Teach) was also a well-known resident until he was captured and hung in 1718. Other residents included the Attorney General Christopher Gale and Surveyor-General Edward Moseley. It is interesting to note that the bell in St Thomas Episcopal Church was cast in England, 1732, and it is 18 years older than the Liberty Bell in Philadelphia, and the church was built in 1734.

There are two references which named him "captain" but the basis for that has not been located. One reference named him "colonial attorney", but that was most likely what is now called acting for some one under a "power of attorney". He m. #1. Elizabeth Ward, a dau of Edward Ward (Norfolk Co will dtd prior to 1669), circa 14 November 1687; he m. #2, prior to 13 January 1691, Elizabeth Alderson (see Second, #2, Generation, of Alderson Family). By his will, dtd 24 October 1715, p. 8 July 1716, they had children and grandchildren:

3. John, inherited 220 acres on Matchapongo Creek, house, etc.
4. William, inherited 340 acres on Newport Sound, tools, his father's sword and cane, a small gun which had belonged to his deceased brother Joel (Jr), a bucaneer gun, cattle, etc.
5. Elizabeth, m. John Perry. She inherited 320 acres, etc.
- +6. Ann, inherited 320 acres, cattle, household items, etc.
7. Mary, m. Henry Woodward, and inherited one shilling.
8. Frances, m. Mr Jarvis, and inherited one shilling.
9. Grandson, Joel, son of Joel (Jr), inherited 250 acres on Newport Sound, the home plantation when age 21, and cattle. By his Grandfather's will, he was to have been brought up by his aunt Elizabeth who was charged to teach him to read and write, etc.
10. Grandson John Woodward, son of Henry Woodward and Mary Martin, inherited 400 acres in Va. Further, his Grandfather referenced another 400 Va acres to be divided between his two grandsons.

NOTE: His will specified that his wife was to have the use of the remaining sheep and cattle, during her lifetime, and then all animals to be divided between Elizabeth, Ann, John and William.

## Outlaw

This Eastern North Carolina family is well documented by the cited sources. The book by Boddie provided much needed clarification/updating of details included in the earlier book by Outlaw. ## Pottage

The following was extracted from pp 31-32 of "Early American Life" (April 1976): The new governor, Josiah Martin (SIC: Martin County was named for him) took office in the palace (SIC: Tryon,

New Bern, NC) in 1771, and set John Hawks to work adding a smoke house, dovecote, and poultry house to the complex. But Martin also inherited an openly rebellious colony. In August of 1774, citizens from thirty of the thirty six counties convened the First Provincial Congress in New Bern against Martin's orders and right under his aristocratic nose. It was the first elected assembly in America to be called in defiance of royal authority. The delegates proclaimed loyalty to the Crown, but listed their strongly worded grievances, chiefly unfair taxation without Parliamentary representation, and threatened severance of trade with Britain if their complaints were not reconciled.

Thomas Respass was a Beaufort County representative to that Convention. He was a member of the Proprietary Royal Council of State, a captain of militia, Judge of the Admiralty Court (Bath, 1756), Commissioner of the Port of Bath (1777-79), member Assembly (1761, 1776, 1777), and was a delegate to the Halifax Convention in November 1776.

## Robertson

A large amount of data has been accumulated on this family which, considering family ties via marriage, is probably the most prolific in Martin County, North Carolina. The Author has included herein only his own documented line of descent; any interested readers are referred to the publication cited in the Preface for a wealth of undocumented details of descent on other branches of this family. That document tabulated data, on the other branches, which could provide the skeletal framework from which a pedigree/family tree could be constructed after verifying the proofs for each generation in that chain of descent.

Many years ago, the Author was told by one of the older of the family members that the earliest of the name, who came to the United States, had escaped from Scotland following the Battle of Culloden (also called the Battle of Drummossie Moor) when the Scots lost to the English. That tale can be stilled forever because that battle took place on 16 April 1746 when Henry Robason, Senior, was already documented as being in North Carolina, as will be seen below in the text.

### First Generation of Record

#### 1

Henry Robason, Senior, place and date of birth not yet known, was the earliest recorded member of the name, to be located in the Colonial Virginia or North Carolina records, when he was granted 400 acres (25 March 1743) and 300 acres (17 May 1752) in Tyrrell County, NC. All of that land is located in what is the present day Martin County on Smithwick Creek. He was a member of the Smithwick Creek Primitive Baptist Church. By his Martin County will, dtd 28 January 1785, p. 1794, he was a self-styled cooper and planter, naming wife Martha (married about 1743) and their children:

2. Joshua, inherited manor plantation, 285 acres, a grist mill and the Family Bible. The Bible has not been located, and it should be found in that the entries would be highly useful.
- +3. James.
4. David.
5. Luke, settled near Aurora, NC, and left sons: Tom, Gabriel and Jesse. The latter left sons Jesse and Charles, plus several daughters.
6. Henry (Jr)(b. 12 August 1745, d. 18 April 1828. His line of descent was in the Robersonville "Weekly Herald" under dates of 16 February and 19 April 1972.

That the Family Bible had been in his possession since the death of his father Daniel, who died in Martin County, TN on 9 August 1835, and that it had not been altered. That the Bible entries were in the handwriting of Luke Bennet, of Martin County, at the special request of Daniel in his lifetime. That Elizabeth (his mother) had resided with him since the death of his father Daniel (Sr).

Bryant first signed as Bryant Robertson which signature was lined thru and he then signed as Bryant Robeson.

### LETTERS FROM ISAAC H JOHNSON

From Cherryville, TN, to Court of Claims, Washington, DC, dated 10 November 1845, which included the fact that Elizabeth resided at least 20 miles from Brownsville, the County Site (Seat).

From Cherryville, TN, to Court of Claims, Washington, DC, dated 19 February 1846, to the effect that Captain Bryant Robason had had the possession of the Family Bible since the death of his father Daniel.

### EXTRACT OF SWORN STATEMENT OF ELIZABETH ROBESON

Executed before Beverley O Watson, JP, Haywood County, TN, dated 31 October 1848, and signed by her "mark":

That she was about 89 years of age, the widow of Daniel who had served in the War, from Martin County, NC, and who died there on 9 August 1835.

### Various Records in the File

The record contained several official documents indicating that she had drawn an annual widow's pension of \$26.64, retroactive to 4 March 1836. The last voucher, dated 23 January 1849, was for that same amount. It would seem, therefore, that she died soon after that date; also, based on her 1845 statement, she would have been born circa 1759-1761.

### Comments by the Contributor

The flowing literate script, by Luke Bennet of Martin County, included entries thru 16 August 1811. Following those entries, which are semi-literate in nature extended for the period thru 1843. The underscoring was provided by the contributor to emphasize the obvious.

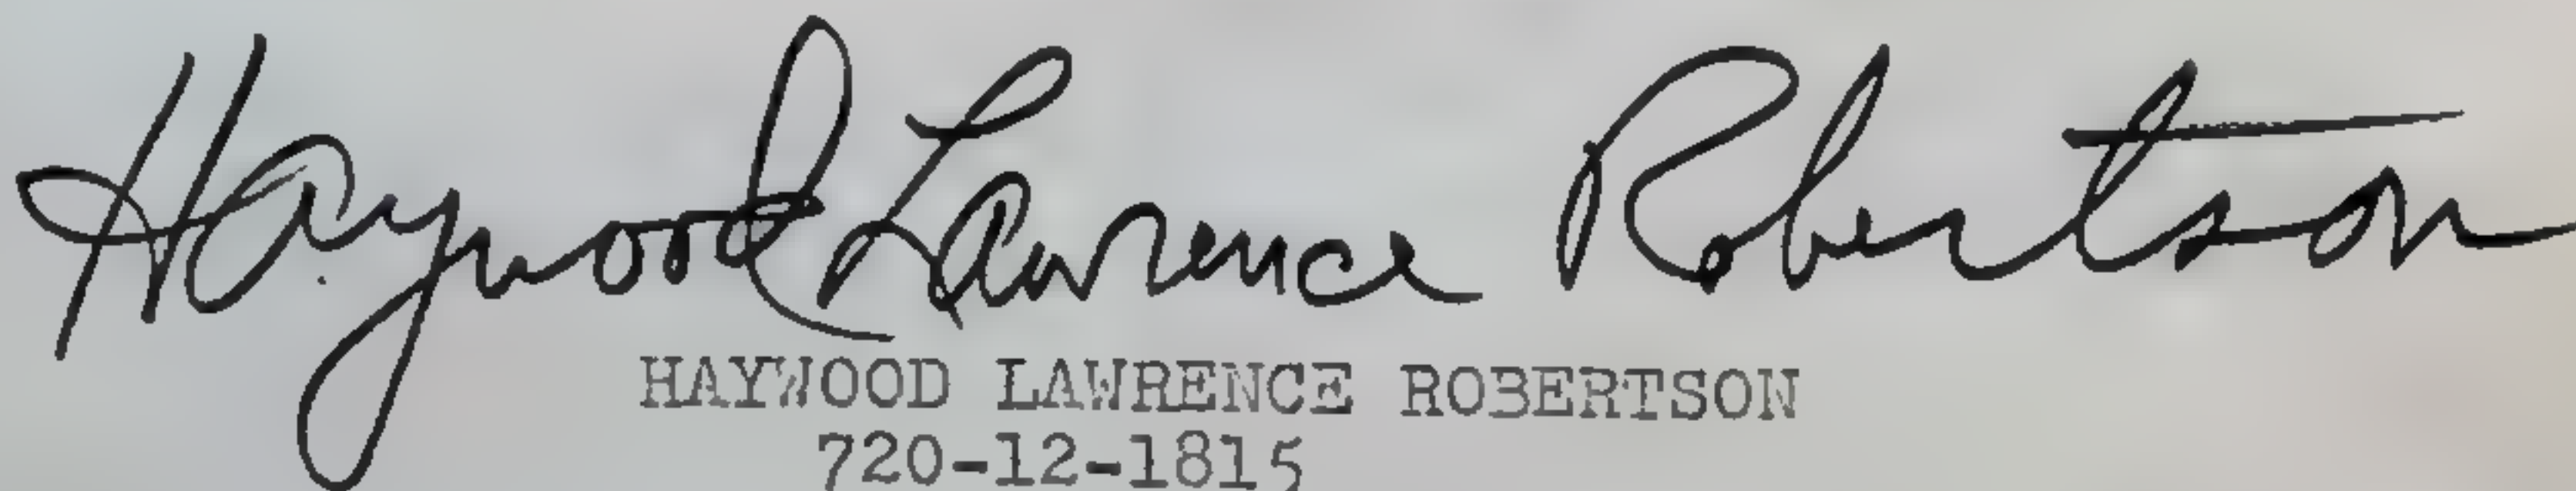

Son Bryant, spelled as Robertson in the Bible four times. Also, in his statement of 1845, he first signed as Bryant Robertson which was lined thru and then signed as Bryant Robeson. This latter signature (a) was likely made to conform to the spelling used by his mother, and (b) supports the fact that Daniel (Sr), if not others among his children, spelled the family name inter-changeably as Robason, Robason and also Robertson. Further, Daniel's brothers spelled the name as Robertson in their official Revolutionary War records.

It is not clear just which of the children of Daniel removed to TN with his wife Elizabeth (Griffin).

Based on the military service<sup>2</sup> of Daniel (Sr), his male descendants are eligible for membership in the Sons of the Revolution (SR) and the Sons of the American Revolution (SAR); his female descendants are eligible for membership in the Daughters of the American Revolution (DAR).

## Scull

### First Generation of Record

#### 1

Edward Scull (Skull) was the earliest documented member of the family name to be found in the Colonial records of North Carolina and Virginia. On 9 September, 21 and 30 October 1752, he acquired 610 acres in Bertie/Hertford Co, NC; Bertie formed from Chowan in 1722 and Hertford in 1759. The records recited that he was from Nansemond Co, Va. Served as member of a Coroner's Jury on 12 January 1764. His estate was administered in April 1767 in Hertford County. He m. Christain. Data on this family is very sketchy because the court houses in Winton and Suffolk were burned more than once; records of adjacent counties have been completely searched but no records were found which were of any use or value. Their son, probably among other children, was:

+2. Elisha.

### Second Generation

#### 2

Elisha Scull was cited in one document as "captain" but the basis for that title has not been located. He was b. in Bertie County on 25 August 1755 and d. Hertford County 13 October 1805. He m. Ann Lun Speight (b. 11 March 1769 in Hertford County, d. date unk in the same county) (See Fourth, #10, Generation of the Speight Family) on 24 January 1784. His relationship to Captain John Gambier Scull, 1st NC Regiment of the Continental Line has not been established. They left children:

3. Mary Ann, b. 8 February 1785.
4. Priscilla, b. 19 March 1787.
5. Penniah, b. 13 March 1789.
6. Chrissey, b. 7 October 1790.

## Snoad

Colonel John Snoad was in the Pamlico section of Bath Precinct, North Carolina, prior to 27 July 1714, when he witnessed the will of Christopher Huddle. There is evidence which suggests that he came from the Boston area. In 1720, he received a land grant for 570 acres on the south side of the Pamlico River, on both sides of what is now called Snoad's Creek, which is on the west side of Goose Creek, Beaufort County, NC.

It has not been established what, if any, relationship he had to S W Snead (d. circa 1799) who operated "Snead's Ferry, on New River, Onslow County, adjacent to Camp Lejeune Marine Corps Base; he also ran a tavern on the site and he had acquired the ferry from Edmund Ennett who started it in 1725. The ferry ceased operations, in 1939, when the bridge was opened a short distance up the river.

### First Generation of Record

#### 1

Colonel John Snoad m. Ann Martin (see Third, #6, Generation of the Martin Family) after 24 October 1715. She d., at age 54, after which he m. Elizabeth Chancy. On 10 November 1738, he gave his sister (Mary who m. Wally Chancy, clerk of Court, brother of Elizabeth) two blacks he had bought in Boston. He was a Justice of the Peace, Beaufort County, 1723 and again on 21 May 1731 and 6 March 1739; served as juryman in 1723. The basis for his title of colonel has not been located to date.

On 7 July 1724, he sold 570 acres on the south side of the Pamlico River, which land was located on the west side of Broad Creek. He was documented as owner of the sloop "Savannah", which appeared to operate out of Boston. The cited references included numerous of his descendents which are not given below. He d. prior to 30 June 1743, and is buried between Snoad's Creek and Runyan Creek, on Windmill Point. At his feet was buried his grandson John Bonner, a son of Colonel James Bonner.

By his deed, dtd 4 November 1738, p. 22 October 1739, and his will dtd 21 June 1743, p. 1 September 1743, he named his second wife Elizabeth (Chancy); she to receive six blacks, 1/3 of the land all of which to revert to son Henry at her death, the use of portions of the home, outbuildings, etc., during her lifetime. By his first wife, he had children:

- +2. Henry
- +3. William
- +4. John
- +5. Mary

- +6. Anne
- +7. Elizabeth
- +8. Sarah

## Second Generation

### 2

Henry Snoad m. Mary Peyton (dau of Sir Benjamin Peyton, a "Royal Line"). He d. prior to 12 December 1752. From the records, it appeared that he spent considerable time as the captain of a ship, a "mariner"; that ship was most likely the "Savannah" which was previously cited. He inherited a very considerable estate, probably because he was the eldest son under the then rather closely followed English "Law of Primogeniture": the home plantation of 225 acres, 640 acres at Beaver Dam, 640 acres on Grindell Creek, plus other acreage on the north side of the Pamlico River. Further, he received a new gun, a sword, three mills, four blacks (one was named as having been bought in Boston), numerous items of furniture, and other items, cattle, swine and sheep.

By his inventory, conducted by his step-uncle Wally Chancy, dtd 25 February 1753, he left an even more extensive estate than he had inherited: a coat-of-arms, a pocket compass, eleven blacks, lots of silver, a gun, a silver-hilted sword (that was his fathers, left to son Benjamin); another sword left to Colonel James Bonner, a very large library of 209 volumes; "sundries brought from Boston"(SIC: only the more interesting items have been listed here), a reference to Capt Stephen Brown (dtd 1 February 1753), a beaver hat, two wigs, a cane, 17 Holland caps, a brace of pistols, a flowered waistcoat, four cravats, a violen, a silver watch, a pair of silver shoes and knee buckles, a mourning gold ring, a sword, a long list of women's silk items, etc., etc.

### 3

William Snoad inherited 640 acres on Queen's Creek, 740 acres on the north side of the Pamlico River, 640 acres on the south side of the Pamlico River, various items of household things, four blacks (one named as having been bought in Boston), cattle, swine and sheep. His will was dtd 15 March 1746 and his inventory dtd 13 June 1749.

### 4

John Snoad inherited 640 acres on the north side of the Pamlico River, one black, cattle, swine and sheep, plus one house.

### 5

Mary Snoad m. Mr Lane. She d. after 20 May 1752. She inherited four blacks, household items and furniture, cattle, swine and sheep.

### 6

Anne Snoad inherited four blacks, housegold items and furniture, cattle, swine and sheep, plus one house. See Second, #6, Generation of the Bonner Family.

2

Elizabeth Snoad inherited one black, several household items, cattle, swine and sheep. She never married.

8

Sarah Snoad inherited two blacks, household items, cattle, swine and sheep. She d. prior to 1 September 1743.

## Sowell

Data on this family is limited, at this time, but material may become available as the follow-on "North Carolina Colonial Records" (series) are published, as well as documents published by independent researchers. ## Speight

### First Generation of Record

1

Francis Speight (Sr), age 21, came to Virginia in the "Thomas and John", 16 June 1635, from London. He was granted 50 acres (1 November 1650), 300 acres (17 March 1654), on the Mansemond River. He was granted 640 acres, Chowan Precinct, NC, at a later date. Those grants were most likely in what is the present-day Gates County, NC, where the Speights lived before moving to Perquimans County, NC. He d. prior to 24 April 1703, Upper Parish, Mansemond County, Va. Detailed data on this family is, at best, sketchy, because the records in the Court House, in Suffolk, Mansemond County, Va, were burned both during and after the Civil War, and records of adjacent counties have produced no data at all. Identified children were:

- +2. John.
- +3. William.
- +4. Francis (Jr).

### Second Generation

2

John Speight was granted 300 acres, 21 April 1634, which had previously been granted to his father, on the east side of Bennetts Creek. That Creek is in Gates County and supports the theory that all of his father's acres were located in Gates County, NC.

3

William Speight, later referred to as "captain" (the basis for that title has not been established, made a deed to his son-in-law, Moses Hare, of 100 acres in Chowan County, NC, on 26 June 1735. He was granted 500 acres, 21 April 1695, on the east side of Bennetts Creek, which was located in Gates County, NC. He acquired an additional 320 acres on 6 February 1696. From legal papers, Perquimans County, NC, his wife was named Judith and they had children:

- 5. A dau, m. Moses Hare.
- 6. Thomas.

4

Francis Speight, Jr, was granted 500 acres, Chuckatuck Parish, Mansemond County, Va, 24 April 1682, and 161 acres on 24 April 1703; he also had a land grant of 840 acres, Chowan County, NC, and had received 100 acres by a deed from Thomas Speight. By his will, dtd 16 October 1749, he named wife Katherin, brother William, and his children:

- +7. John

8. Joseph.
9. Moses.

### Third Generation

7

John Speight, b. Chowan County, NC. He m. Jemima - - -. Served as a Lieutenant, in LtCol Benjamin Wynn's Company, of Militia, Hertford County, NC, 28 May 1772. They had, probably among others:

## Wallace

Three brothers were documented as having been in Albemarle Precinct, North Carolina, and all were cited as from Scotland.

### First Generation of Record

1

John Wallace (Wallis), cited in the early records as an "adventurer and settler", from the Barbados Islands, 17 January 1664. He served as a juror, Albemarle Precinct, in 1693; was an agent, 1665, for the Earl of Clarendon; described as strong of character, of marked executive ability and a successful businessman. Known children included:

2. Mary, m. Peter Parker, Sr.
3. John.

4

Robert Wallace, served as a member of a court, 29 November 1694, in Albemarle Precinct, and still living in 1707. On 29 November, he signed a document describing himself as "Deputy Governors Assistant".

## Wilson

### First Generation of Record

#### 1

Nicholas Wilson was the earliest of the line to be found in Colonial Virginia records, when in 1678 (and that data is conflicting) he m. the widow of William Cocker. It is, however, fully documented that, as a Surry County resident, he obtained a 99-year lease on a water mill (1679) and land on Lawnes Creek, 1 September 1680, all of which were located in Isle of Wight County, Virginia. His will, not yet located, believed to have been dtd 24 July 1693, p. 15 May 1694, in either Surry or Isle of Wight County. His estate was appraised 9 December 1696, proved that he was an individual of extensive means. He m. Margaret Sampson, in 1688 (see Second, #4, Generation of Sampson Family) and they left children:

2. Sampson, not age 21 on 15 November 1694.
- +3. James, not age 21 on 28 July 1698.
4. Anne.

### Second Generation

#### 2

James Wilson (Sr), m. Alis - - - (d. 27 August 1692). By an early date, he had acquired 450 acres on Bennets Creek, Chowan County, NC. He d. prior to 3 October 1759, his inventory dtd 15 July 1760 listed a great amount of land, plus: twelve blacks, 56 cattle, 20 sheep, 47 swine, five horses, numerous household items, two money seals, tools, a large Bible, books, weaving tools, a warming pan and one large canoe. They had, probably among others, children:

- +5. Scarsbrook.
- +6. James.

### Third Generation

#### 5

Scarsbrook Wilson, eldest son, served as a private in Captain King's Company of Militia, 1754. Justice of Peace, Hertford County, 1759-61. He signed the marriage bond for his niece, Elizabeth, when she married John Baker.

#### 6

James Wilson (Jr) was in Chowan County, NC, as early as July 1733 when he was a witness to a deed. It is not clear if he was the James Wilson who deeded land in Warwick County (near Newport News, Va) on 23 May 1733. Served as a member of a jury, Chowan County, in 1737, to lay out a road from Bennetts Creek bridge to the Meherrin Ferry (owned by Henry Baker). On 7 March 1746, appointed Customs

Inspector for Bennetts Creek and then Ware House Inspector in 1748. He was alive on 5 September 1754, when his daughter was m., but d. by 3 October 1759 when his brother petitioned for the estate of their father. This James must not be confused with a Colonel James Wilson of Norfolk County, Va. He left, probably among others, a dau:

+7. Elizabeth.
